

Student Preparation Implications

- Doing ELA and math prep programs for students at the same time
- Last minute math review while scoring ELA; while math scoring science last-minute prep

Administration Concerns

- Worried about having enough locations and mod providers
- Lots for accelerated 8th graders to navigate (and for all 8th graders)
- Social studies exam and make-up period (if school has dismissed)
- Overlap of ELA make-up day and math tests
- H1N1
- Some districts have break right before the Monday (some delaying the start to Tuesday or even Wednesday)
- Will we have the scores back in time to make scheduling (AIS) decisions?
-

Scoring Issues

- Secure subs now
- Students working on culminating projects while teachers score
- Scoring on Saturday (if use BOCES then aidable)
- Score after school (tutor pay)
- Retired teachers
- 3rd part vendors (but they might be at capacity)
